

NSF Tested & Certified Ceramic
0.5 Micron Absolute

UltraCeram Ceramic Gravity Filter

Flow rate:
1 Litre per Hour

Capacity:
12 Months/2000 Litres

The World's Finest Ceramic Cartridge!
0.5 Micron Absolute

3 Stage Filtration Process

- 1. Ceramic Outer Shell** with 0.5 Micron Absolute Filtration, removing sediment, bacteria, and parasites.
- 2. Impregnated with Silver ions** the UltraCeram Gravity filter's ceramic media has enhanced bacteriostatic and self sterilising properties inhibiting bacteria growth.
- 3. Inner core of activated carbon** and other adsorbent materials remove fluoride, chlorine, organic compounds, chloramines and heavy metals.

Gravity Filter

Filtration Results

CONTAMINANT	% REMOVAL
FLUORIDE	97% +
CHLORAMINES	99% +
PATHOGENIC BACTERIA Cholera, Typhoid, Salmonella, E-Coli, Fecal Coliform	99.99%
CYSTS Giardia & Cryptosporidium	99.99%
SEDIMENT	99.99%
CHLORINE	99% +
LEAD	99% +
METALS Aluminium, Iron, Mercury, Nickel, Zinc	98% +
HERBICIDES	99% +
NITRATES	92% +
